VERSE 1

D **G**
The sun goes down behind the hill
Bm **D**
I take the silence like a pill
G **Bm**
The shadows stretch across the floor
D **G**
I'm locking every single door
Bm **D**
I hear the traffic far away
G **Bm**
The dying breath of another day
D **G**
I'm sitting in the fading light
Bm **D**
And arming for the coming fight

CHORUS

G **Bm**
Tomorrow is a heavy stone
D **G**
I have to carry it alone
Bm **D**
It's coming like a tidal wave

G **Bm**
To wash away the things I save
D **G**
Tomorrow doesn't care for me
Bm **D**
It's just another tragedy
G **Bm**
I close my eyes and hold my breath
D **G**
And wait for the little death
Bm
Of tomorrow

VERSE 2

D **G**
I made a promise to the dark
Bm **D**
To leave a stain, to leave a mark
G **Bm**
But now I'm just trying to survive
D **G**
To keep the engine humming and alive
Bm **D**
The calendar is on the wall
G **Bm**
I watch the dates begin to fall
D **G**
I'm paralyzed by what is next
Bm **D**
And reading through the ancient text

CHORUS

G **Bm**
Tomorrow is a heavy stone
D **G**
I have to carry it alone
Bm **D**
It's coming like a tidal wave
G **Bm**
To wash away the things I save
D **G**
Tomorrow doesn't care for me

Bm D
It's just another tragedy
G Bm
I close my eyes and hold my breath
D G
And wait for the little death
Bm
Of tomorrow
